Get flexible, feature-rich datacenter management at a lower cost
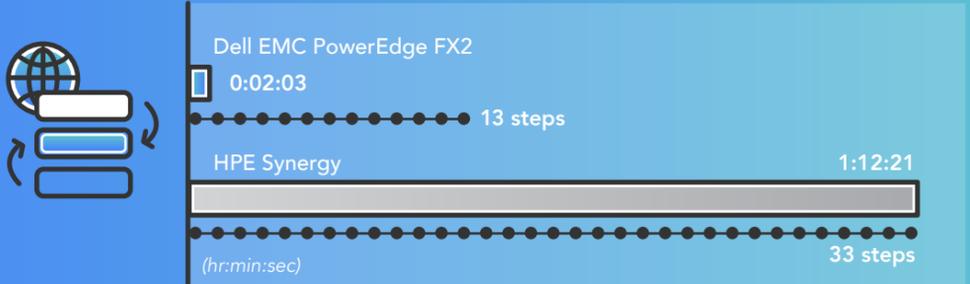

The Dell EMC PowerEdge FX2 with OpenManage can save time for IT admins compared to HPE Synergy with OneView

Dell EMC™ PowerEdge™ FX2 using 14th generation Dell EMC PowerEdge FC640 compute sleds with Dell EMC OpenManage™ Systems Management solutions saved time in multiple use cases, offered feature-rich integrations with VMware vCenter® and Microsoft® System Center, and had a lower price tag than an HPE Synergy solution with embedded HPE OneView.
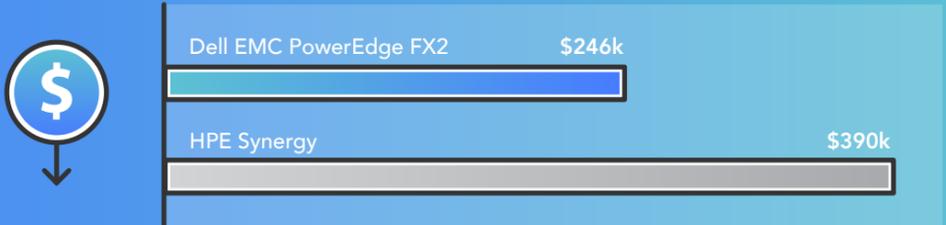

IT admins using only tools native to HPE Synergy still have to log into each node and install Microsoft Windows Server®, one instance at a time. The time saved using Dell EMC servers could allow IT admins to focus on other initiatives.

Spend up to 97% less time and take 20 fewer steps when deploying three Windows® servers

Dell EMC PowerEdge FX2

33 steps

(hr:min:sec)

Spend 36% less with Dell EMC compared to HPE

With the $144k savings from a single FX2 solution, you could invest in more hardware to grow your capabilities.

Dell EMC PowerEdge FX2 — $246k

HPE Synergy — $390k

Using OpenManage Integration for Microsoft System Center, you can

Deploy a single OS in
79% less time
and
10 fewer steps

Update firmware for a single OS in
89% less time
and
34 fewer steps

Deploy a single Microsoft Hyper-V® host in
46% less time

Deploy multiple OSs in
87% less time
and
24 fewer steps

Update firmware for multiple OSs in
89% less time
and
34 fewer steps

Deploy multiple Microsoft Hyper-V hosts in
46% less time

Using OpenManage Essentials, you can

Deploy a single Windows server in
91% less time

Update firmware for multiple Windows servers in
27% less time
and
6 fewer steps

	Dell EMC	HPE
VMware vCenter integration		
Update firmware	✓	✗
Create a deployment template	✓	✗
Microsoft System Center integration		
Configure replacement hardware with previously known settings	✓	✗
Create operational templates based on specific hardware	✓	✗
Monitor performance of hardware and virtual layers	✓	✗
Track the warranties of apps, firmware, and server and storage nodes	✓	✗

Both Dell EMC and HPE solutions offer integrations to VMware vCenter and Microsoft System Center, but the Dell EMC integrations have features that HPE integrations do not.
