August 2019. dellemc.com/resources/en-us/asset/white-papers/products/converged-infrastructure/esg-technical-validation-dell-emc-vxrail-with-intel-optane.pdf. At 100% utilization, VxRail with Intel Optane SSDs provide 22% more IOPS and 59% lower latency. Transactions per minute (TPM) and new orders per minute (NOPM) increased nearly 61% in VxRail with Intel Optane SSDs, using HammerDB to measure online transactional processing (OLTP) activity in a typical online brokerage firm.

2 Based on internal Dell Technologies testing (May 2020) comparing OLTP 4k workload on four VxRail P570F systems with Intel Optane persistent memory in app direct mode vs. VxRail all NVMe. Actual results will vary.
