Up to 11% ROI **

Save IT resources

Support all employees

1

Save money

With our PC refresh schedule, you can save up to 25%* in PC lifecycle management.

2

Save resources

Dell's PC management services handle the day-to-day IT issues, so you can put your resources towards other important tasks.

3

Stay profitable

Our PC management services also help your business get up to an 11% return on investment.

4

Get full support

Your employees get the same end-to-end user experience whether they are in the office or remote.

Calculate your savings with [Dell's PC Lifecycle Services Estimator](#)

PC MANAGEMENT

made real

*Based on Dell's PC Lifecycle Services Estimator tool developed by Forrester Consulting, commissioned by Dell and Intel®, May 2018. Estimated savings is calculated over 3 years and includes hardware, software, services and other resource adjustments across PC lifecycle management. For more information, visit: <https://tools.totaleconomicimpact.com/go/dell/pclifecycle/index.html>

**Based on a study conducted by Forrester® Consulting commissioned by Dell and Intel®, "The Total Economic Impact™ of Dell's PC Lifecycle Services", February 2018. Estimated ROI is calculated over 3 years considering a large organization with about 4,000 end-user devices leveraging Dell's PC Lifecycle Services. Full report: [View Report](#)
