Technology that powers a smarter way to meet.

DELL OPTIPLEX™ 7000 SERIES WITH INTEL UNITE®

For customers
Meetings are more productive with Intel Unite® software running on the Dell OptiPlex™ 7000 Series Micro, Ultra and All-in-Ones. This simple, customizable, wireless solution gets things started quickly—no adapters or dongles needed. Easy setup and usability virtually eliminates mid-meeting IT visits. Content is shared seamlessly to meeting rooms, remote users, and invited guests.

Customizable for different needs
IT professionals can easily deploy and manage Dell OptiPlex 7000 Series Micro, Ultra or All-in-One form factors running the Intel Unite solution in their environment, tailoring elements to fit specific business needs, including display configurations and interface. Advanced plugin capabilities allow for integration with other technologies including Zoom® and Skype for Business®, directly from the app, with the convenience of wireless connectivity.

Powerful remote manageability
The Intel Unite solution allows IT staff to remotely troubleshoot and track usage data from the administrative web portal, which efficiently resolves most tech issues as well as cuts down on costs.

Broad device compatibility
The Intel Unite solution supports a broad array of client devices, including PCs with Windows®, 7, 8.1 and 10, Macs® with OS X®, and iPads®, making it a friendly tool for the entire office.

For IT professionals
The 8th and 9th Generation Intel® Core™ vPro™ processor offers the latest security and manageability benefits to help keep data secure and maximize employee productivity. And, they can remotely troubleshoot and track usage data from the administrative web portal, efficiently resolving most issues at minimal cost.
