*Based on internal analysis, March 2020

** Applies to select fixed node configuration; contact your sales representative for details. Excludes orders over 24 nodes, certain vRealize (vRA, vRO) components, and some other features. Customer credit approval, site survey and configuration workbook must be completed before order is placed. Product availability, holidays and other factors may impact deployment time. Deployment includes delivery, standardized installation and hardware and software configuration. US only.

***Based on internal analysis of DTCP with subscription comparing the price of 8 node standard architecture to the new 4 node consolidated architecture. Actual saving may vary depending on configuration.

****Based on a 3-year term with the minimum starting configuration (4 x VMs small + 3 x 1Gbps) and an average monthly price of $2104 (USD). Pricing for DTCP with subscription may vary depending on the number and type of nodes in your configuration. For details on pricing, consult your account manager.

*****Based on internal analysis using standard configuration, March 2020; times may vary based on configuration.
