Deploy
Deploy fully customized systems directly from the factory to employees, wherever they are, through the integration of factory and cloud, and save up to nearly a week of IT time per 1,000 devices deployed, dramatically reducing the time to get users productive.*

Secure
Secure your people with trusted devices, trusted access and trusted data that won’t compromise their productivity, and doesn’t impede their ability to work anywhere, anytime.

Manage
Manage all endpoints from one console, and reduce time to deliver core applications to employee from 2 hours to just over 12 minutes.**

Support
ProSupport Plus with SupportAssist feature predictive and proactive support that reduces time spent on calls resolving hardware and software issues, resulting in 92% less time spent resolving a failed hard drive.***

*Based on Principled Technologies Report commissioned by Dell Technologies, “Deliver pre-configured systems to end users faster with Dell Provisioning for VMware Workspace ONE”, January 2019, comparing deployment using Dell Provisioning for Workspace ONE vs. traditional deployment. Results extrapolated to deployment of 1000 systems, a week represents seven full workdays. Actual results will vary. Full report: [insert link]

**Based on a Forrester Total Economic Impact™ Study commissioned by VMware, “The Total Economic Impact™ of VMware Workspace ONE for Windows 10”, September 2018. Results from interviews with VMware Workspace ONE customers and/or based on a 12,000-employee composite organization. Full study: [insert link to report]
