Modern storage and data protection enhance SAP migration benefits.

Organisations that modernise storage and data protection prior to migrating to SAP HANA or S/4HANA expect to see substantial business results.

58%

of IT leaders increase business agility*

55%

of IT leaders boost revenue growth*

50%

of IT leaders increase product innovation*

Maximise SAP agility and performance with modern storage and data protection.

The Forrester survey shows that modernising IT prior to migration with Dell Technologies IT infrastructure, including modern storage and data protection, simplifies the migration and delivers the power, agility, scalability and security that SAP workloads require. A composite organisations of six Dell Technologies storage and data protection customers who migrated to next-generation SAP workloads saw:

Up to **4.5x** faster runtime for SAP supply chain analytics*

2.4x faster ETL loads for SAP*

Up to **33%** less time spent on storage management*

Create maximum business value from your SAP migration.

The Forrester survey also reports dramatically increased business results and financial wins from Dell Technologies storage and data protection customers who deployed SAP on modernised infrastructure. They report:

Reducing OpEx **15%*** on average

ROI of up to **2.8x***

Payback in under **3 months***

“We have seen an average runtime reduction of 50% to 60% between the Dell EMC technology and SAP HANA database upgrades.”

— Vice President, Information Technology, Sports Equipment

The perfect partner for your SAP migration: Modern storage and data protection from Dell Technologies.

Protect and power traditional and next-gen SAP workloads with modernised infrastructure and advanced data management to unlock new value and drive innovation and business agility. Optimise SAP HANA or SAP S/4HANA migration with modern storage and data protection from Dell Technologies that deliver the agility and performance to power real-time intelligence.
