Large Monitors
INTERACTIVE SOLUTIONS FOR EDUCATION

Dell’s interactive Large Monitors offer amazing image quality and cutting-edge collaboration features that engage students like never before. Our intuitive design works like a touch-enabled tablet or 2-in-1 device and does not require special software or calibration. Learn more about how upgrading your classroom displays can improve productivity for teachers, make lessons more impactful for students and reduce maintenance for IT.

IMPRESSIONS VISUALS. IMPACTFUL LEARNING.

Contact your Dell representative or visit Dell.com/Monitors for more information.
FEATURES TEACHERS AND STUDENTS NEED

Keep your students engaged with a 55, 70 or 86-inch touch display that is designed to make content brighter and easier to read while enabling powerful collaboration that can boost learning outcomes. Dell Large Monitors offer a variety of technologies and features that can help students build essential skills such as teamwork, communication, creativity and critical thinking.

COLLABORATION

Touch displays can help students retain learning content by empowering educators to make lessons that are more interactive, engaging and collaborative. Our intuitive design takes the familiar experience of using a touch-enabled device to the big screen, so there is no learning curve or training required, students and educators can get started right away.

LESSON CAPTURE & SHARING

Educators and students can annotate over applications or use the display as a virtual whiteboard. Annotations can then be saved and shared with students, in the classroom or remotely, in real time using the included collaboration software or other third party options.

ACCESSIBILITY

Dell’s patent pending accessibility feature on the C5518QT and C8618QT offers students working at different heights or with limited mobility better accessibility. Easy-to-reach touch sensors (located on either side of the display) instantly drop the image height to one of three convenient settings without the need for any additional hardware or software. We also offer a variety of mobile and height adjustable stands for even more flexibility.
ALL-IN-ONE

An optional Dell OptiPlex Micro PC can be inserted into the integrated PC slot on the C5518QT and C8618QT or attach via an optional bracket to the C7017T for an all-in-one solution. Having everything in one place makes it easy for educators and students to share without having to physically connect their personal devices.

WIRELESS PRESENTATION

Students and teachers can present right from their devices using a variety of optional wireless presentation solutions from our trusted partners. Find a wireless solution that works for your environment, regardless of your devices and operating systems; we offer a solution for virtually any scenario.

DISTANCE LEARNING

Whether it’s creating an inclusive learning experience for remote learners or bringing field trips into the classroom, Dell makes it easy to collaborate over distance with camera solutions that deliver a world of learning to students.
Why Choose Dell Large Monitors

IMPRESSIVE VISUALS. IMPACTFUL LEARNING.

DISCOVER SIMPLICITY, FLEXIBILITY, AND RELIABILITY WITH DELL LARGE MONITORS.

Presenting and collaborating is easy for students and educators when you equip your learning spaces with Dell. Dell Interactive Large Monitors are available as standalone displays or they can be customized with hardware and software from Dell and leading manufacturers like Intel, Chief, and FlatFrog, to create a total solution that meets the unique needs of your institution.

OPEN PLATFORM

Dell’s open platform technology enables you to deploy the displays into your learning spaces without disruption. You can continue using your existing hardware and software if you like or use some of ours. Classroom displays should fit the way instructors teach, not the other way around.

CUSTOMIZATION

Dell works with leading manufacturers to offer a variety of hardware and software technologies that make it easy for you to customize a display solution by selecting only the features and accessories that you need.

SERVICES

Dell end-to-end services help accelerate and simplify deployment and implementation of our displays. Our experts will own the entire process from helping you pick the right configuration to organizing the installation.

SUPPORT

Dell Large Monitors include a 3-year Advanced Exchange warranty that makes it easy for you to get support. If needed we will send you a replacement display the next business day, ensuring that your classroom is always ready for learning.
MAKE YOUR PRESENTATIONS TRULY COLLABORATIVE

DisplayNote software helps to make presentations more interactive. Allowing users to connect and contribute to the presentation and collaborate with each other from their own devices.

KEY FEATURES:

• Multi-Person screen sharing
• 2 way collaboration
• Screen capture
• Note taking
• Session management

ANNOTATE ON SURFACE USING INGLASS TOUCH TECHNOLOGY

FlatFrog works just like a typical whiteboard - allowing presenters to annotate on the surface and capture annotations with differentiated pen functionality for multiple users and natural palm erase.

KEY FEATURES:

• Finger and stylus sensitive
• Up to 20pts of touch
• Pen differentiation
• Note taking
• Palm erase
Recommended Accessories
CLASSROOM SOLUTION FOR C7017T

**WALL MOUNT (INCLUDED)**
The Dell C7017T includes a fixed wall mount that is easy to install and allows for quick access to the display.

**DELL OPTIPLEX 7050 MICRO PC**
Create an all-in-one set up when you attach an OptiPlex Micro PC to the back of the C7017T.

**DELL WIRELESS KEYBOARD & MOUSE | KM714**
Connect to the PC wirelessly with a light weight keyboard and mouse that allows for multiple PCs to be connected.

**CHIEF PC MOUNTING BRACKET**
Simply attach the Chief Mounting Bracket to the included wall mount for an all-in-one solution.

---

**CUSTOMIZE IT**

**Microsoft**
Choose from web, mobile, and desktop versions of apps that students can annotate over simultaneously and in real time, such as Microsoft Edge, PowerPoint and OneNote.

**Google for Education**
Students can annotate and interact with compatible applications directly on the display from their Chromebook.

**ACTIONTEC SCREENBEAM 960**
