Dell Large Displays, from the world’s number one monitor company*, are designed to facilitate teamwork in meeting and learning spaces. Choose from standalone Dell Large Format Monitors and Projectors or create a customized end-to-end display solution that is tailored to the way your team members meet.

To help you choose the right products for your meeting space, we recommend solutions for 4 main types of meeting spaces in this guide.

Small and open spaces  Medium spaces  Large spaces  Learning spaces
Dell Large Format Monitors
CONNECT. PRESENT. COLLABORATE.

Dell Large Format Monitors are easy to setup and use, allowing you and your teams to connect quickly without disruption. They are software and hardware agnostic so you can use them with virtually any PC, OS or software. And, they come with a wide variety of connectivity options, so you can quickly connect to the display and seamlessly switch between presenters, allowing your audience to enjoy a smooth and continuous presentation.

Captivate your audiences with impressive visuals in up to 4K resolution¹. See crisp, sharp text and consistent color from virtually anywhere in the room, thanks to In-Plane Switching technology. Plus, anti-glare and anti-smudge coatings reduce distracting reflections or fingerprints to improve clarity.

Group collaboration is seamless and intuitive with our interactive touch monitors that enable multiple users to write, edit, annotate or erase notes simultaneously — with up to 20 touch points. Plus, exclusive Dell Screen Drop accessibility feature, available in our 4K interactive touch monitors, improves reachability for users from different heights.

Our own team can effortlessly deploy the Dell 86 4K monitors. We use our own Windows image to ensure compliance with our standards and security policies. That reduces the total cost of the devices even more.”

– Paul Wilmore, Director of IT, Stonyhurst College

Source: Dell/Stonyhurst College customer reference case study, December 2018

EASY TO DEPLOY AND MANAGE

Dell Large Format Monitors are VESA compatible, making it easy to pick a mounting solution that best fits your space, whether that’s a mobile cart, stand or wall mount. And, with HDMI CEC, RJ45 and RS232 ports¹, your IT can conveniently control your monitor via the network or meeting room control systems.
Why choose Dell Large Format Monitors
IMPRESSION VISUALS. IMPACTFUL PRESENTATIONS.

Displays should fit the way your employees meet, not the other way around. With our open platform approach, you can deploy our monitors into your meeting spaces and continue to use the technology that you’re comfortable with. This makes your new monitor inherently easy to deploy and use — without the need for calibration or training.

Dell offers a variety of hardware and software technologies that complement our Large Displays, making it easy for you to create an all-to-end display solution that meets the needs of your business.

Dell Large Format Monitors come with a 3-year Advanced Exchange Service (upgradeable to 5 years)\(^2\) so that if needed, we will send you a replacement display the next business day, ensuring your spaces are always ready for a meeting. Upgrade to 24x7 specialist technical phone support with the Dell ProSupport option.

The Dell Large Format Monitors don’t require any training at all. After a rapid setup, teachers and students are ready to use the Dell 86 4K monitors immediately.”

— Paul Wilmore, Director of IT, Stonyhurst College

Small Spaces and Open Areas

Dell 55 monitors are designed for small rooms, open meeting spaces, huddle areas, employee lunchrooms and lounges — anywhere where small groups collaborate.

The most common setup in this space is the Dell 55 4K Conference Room Monitor (C5519Q), our non-interactive 4K monitor, on a wall mount with an Actiontec ScreenBeam Enterprise 960 wireless receiver. This lets teams huddle together and connect quickly for short meetings.

For more involved discussions where video conferencing or whiteboarding is required, the Dell 55 4K Interactive Touch Monitor (C5518QT) with an integrated Dell OptiPlex Micro PC along with software such as FlatFrog or Zoom, provide an easy way for teams to ideate and collaborate effectively.

To improve collaboration with remote workers, software solutions such as Intel Unite®, Microsoft Teams or Zoom Rooms loaded on the Dell OptiPlex Micro PC, provide a simple wireless connection where team members located anywhere can connect to.

**ACCOMMODATES:**

2 – 4 people

**SUGGESTED VIEWING DISTANCE:**

Approx. 8 feet (2.5 m) from screen to furthest seat

---

**RECOMMENDED DELL LARGE DISPLAYS**

**DELL 55 4K INTERACTIVE TOUCH MONITOR – C5518QT**

This interactive monitor with 4K resolution and InGlass™ 20-point touch capability allows multiple users to interact with the screen using fingers or styluses, making it the ideal collaborative solution for small spaces. Seamlessly integrate an optional Dell OptiPlex Micro PC into the back panel for all-in-one meeting solution.

**DELL 55 4K CONFERENCE ROOM MONITOR – C5519Q**

Experience sharp text and images on this non-interactive monitor with 4K resolution. The wide 178°/178° viewing angle lets audiences see fine details and vibrant colors from either side of the room while a wide range of ports, including RS232/RJ-45, allow easy connectivity and remote IT management.
Recommended Solutions
SMALL SPACES AND OPEN AREAS

ESSENTIALS

DELL OPTIPLEX MICRO PC
Dell OptiPlex Micro PC enables an all-in-one like experience. When combined with conferencing software, it allows video conferencing, whiteboarding, presentations and other applications to be run directly on the monitor for a very easy-to-use meeting experience.

CHIEF MOUNTS & STANDS
Compatible with Dell 55 monitors:
- Fixed Wall Mount – LSA1U
- Table Stand – LDS1U
- Mobile Cart – LPAUB
- Floor Stand – LFAUB
Clamping kit for C5519Q – FCA520 (for cart) / FCA112 (for wall mount)

LOGITECH MEETUP CONFERENCE CAMERA
Ideal for small and medium spaces, this conference camera offers a 120 degree field of view and with comes with integrated audio, making this perfect for video conferencing when combined with conference software.

ACTIONTEC SCREENBEAM ENTERPRISE 960
Suitable for small and medium spaces, this enterprise-grade wireless display receiver enables users to present from anywhere in the room, and even allows wireless touchscreen operation.

SOFTWARE SOLUTIONS

FlatFrog works just like a typical whiteboard — allowing presenters to annotate on the surface, capture annotations with differentiated pen functionality for multiple users, and erase content using their palms.
(License included with C5518QT, C7520QT and C8618QT.)

The Quicklaunch™ application is a simple, secure, customizable meeting room interface that transforms a PC into a one click meeting space. With one touch, users can quickly join meetings, start applications, access data and content, and share device screens.

FlatFrog

DID YOU KNOW?

More than four out of five (81%) employees believed that employee engagement is a benefit from deploying interactive flat panels.

Dell 70 and 75 Interactive Touch Monitors are ideal for medium sized meeting spaces that accommodate 5-9 people. Efficiency depends on team members being able to quickly present, share information and brainstorm ideas.

The most common setup in this space is a wall mounted Dell 75 4K Interactive Touch Monitor (C7520QT) with a Dell OptiPlex Micro PC seamlessly integrated into the back of the monitor. Logitech Rally and video conferencing software such as Intel Unite®, Microsoft Teams or Zoom Rooms are included to expand discussions beyond the meeting room, making it easier for team members working in other locations to participate, collaborate and contribute.

For more involved meetings such as agile scrum meetings, project planning, brainstorming or ideation sessions, where multiple people may need to annotate or collaborate on the screen, software such as Microsoft Whiteboard or FlatFrog provides an easy way for teams to ideate and collaborate effectively.

**RECOMMENDED DELL LARGE DISPLAYS**

**DELL 75 4K INTERACTIVE TOUCH MONITOR – C7520QT**
Built for collaboration, the outstanding Dell 75 4K interactive monitor features up to 20-point touch and exclusive Dell Screen Drop which improves reachability for users working from different heights. Seamlessly integrate an optional Dell OptiPlex Micro PC into the back panel for all-in-one meeting solution.

**DELL 70 INTERACTIVE TOUCH MONITOR – C7017T**
Exchange ideas clearly on the Dell 70 interactive monitor with up to 10-point touch. See images and text clearly in Full HD resolution on the bright anti-glare, anti-smudge screen that reduces distracting reflections and fingerprints. A wide range of ports, including RS232/RJ45, enables easy connectivity and network management.

**DELL ADVANCED LASER PROJECTOR – P519HL OR 7760**
Dell Laser Projectors are another option for impressive presentations. Dell P519HL or 7760 Full HD laser projectors deliver brilliant images with consistent brightness and color. These low maintenance lampless projectors are more energy efficient than traditional projectors and can last for about ten years.
Recommended Solutions
MEDIUM SPACES

DELL OPTIPLEX MICRO PC
Dell OptiPlex Micro PC creates an all-in-one solution that simplifies deployment, network management, and allows your IT to easily upload your organization’s standard OS image for a display solution that adheres to your company’s security and service standards.

CHIEF MOUNTS & STANDS
Compatible with Dell 70 & 75 monitors:
- Fixed Wall Mount – LSA1U (included with C7017T)
- Mobile Cart – LPAUB
- Floor Stand – LFAUB
- Clamping kit for C5519Q – FCA520 (for cart) / FCA112 (for wall mount)

LOGITECH RALLY
Logitech Rally sets a new standard for USB-connected conference camera systems, uniting premium design and materials with unmatched audio and video performance. Ideal for medium and larger spaces.

ACTIONTEC SCREENBEAM ENTERPRISE 960
Suitable for small and medium spaces, this enterprise-grade wireless display receiver enables users to present from anywhere in the room, and even allows wireless touchscreen operation.

SOFTWARE SOLUTIONS

FlatFrog works just like a typical whiteboard — allowing presenters to annotate on the surface, capture annotations with differentiated pen functionality for multiple users, and erase content using their palms. (License included with C5518QT, C7520QT and C8618QT.)

Intel UNITE
Easily create and manage a secure collaboration platform for your organization. Wirelessly connect displays, employees, and mixed technology environments so teams can share and collaborate seamlessly, wherever they are.

Microsoft
Microsoft Whiteboard provides a freeform intelligent canvas where teams can ideate, create, and collaborate visually via the cloud. It allows all team members to edit and comment directly on the canvas in real time, no matter where they are.

Quicklaunch
The Quicklaunch™ application is a simple, secure, customizable meeting room interface that transforms a PC into a one click meeting space. With one touch, users can quickly join meetings, start applications, access data and content, and share device screens.

DisplayNote
DisplayNote software helps to make presentations more interactive. Allowing users to connect and contribute to the presentation and collaborate with each other from their own devices. (License included with C5518QT, C7017T, C8618QT.)

Zoom Rooms
Zoom Rooms is a software that combines video conferencing, wireless content sharing, and integrated audio into an easy-to-use platform, where attendees can join from a room, desktop, or mobile device.

DID YOU KNOW?
A recent study by Wainhouse Research found that at least half (50%) of respondents believe that projects are completed more quickly when interactive flat panels were deployed in their organizations.

Large Spaces

The impressive Dell 86 4K Interactive Touch Monitor (C8618QT) is the ideal monitor for large meeting spaces, where executives and teams present, discuss, strategize and collaborate.

The most common setup in this space is the Dell 86 4K Interactive Touch Monitor with a Dell OptiPlex Micro PC integrated into the back, mounted on the wall. Logitech Group and video collaboration software such as Intel Unite®, Microsoft Teams or Zoom Rooms offer a simple wireless connection for that team members located anywhere to connect to, enabling them to participate, collaborate and contribute remotely.

Similar to medium spaces, software such as Microsoft Whiteboard or FlatFrog are ideal for more involved meetings where multiple people may need to annotate or collaborate on the screen, such as agile scrum meetings, project planning, brainstorming or ideation sessions.

**RECOMMENDED DELL LARGE DISPLAYS**

**DELL 86 4K INTERACTIVE TOUCH MONITOR ~ C8618QT**
Keep audiences engaged with the expansive Dell 86 Interactive display with brilliant 4K resolution and up to 20-points touch capability. Exclusive Dell Screen Drop feature improves reachability while the dedicated space for an optional OptiPlex Micro PC enables an all in one solution that can simplify deployment, network management and security measures.

**DELL ADVANCED 4K LASER PROJECTOR ~ S718QL**
The Dell 4K UHD Laser Projector is another option for outstanding presentations in large spaces. This powerful, lampless projector features ultra-short throw technology, which allows users to place it 4 inches from the wall for a 100” display, or less than 9 inches for a 130” screen that surpasses boundaries and expectations.

**ACCOMMODATES:**
10 – 15 people

**SUGGESTED VIEWING DISTANCE:**
Approx. 15 feet (4.5 m) from screen to furthest

Zoom Rooms is a software that combines video conferencing, wireless content sharing, and integrated audio into an easy-to-use platform, where attendees can join from a room, desktop, or mobile device.

DID YOU KNOW?

Almost as many, 69%, believe that having records of brainstorming / teaming sessions is a benefit of using collaborative, interactive flat panels.

Dell 70 and 75 Interactive Touch Monitors are ideal for classrooms and learning spaces, where educators present and demonstrate interactive content. Important considerations for these spaces include readability from the back of the classroom, accessibility of the interactive touch monitors for younger students, ease-of-use and durability.

The most common setup in this space is a wall mounted Dell 75 4K Interactive Touch Monitor (C7520QT) with a Dell OptiPlex Micro PC loaded with education software such as Google for Education or Microsoft in Education, or Intel Unite®, integrated into the back of the monitor. Since Dell Large Format Monitors are software and hardware agnostic, they can work with almost any existing educational software and operating systems, including Windows and Chrome.

For scenarios where monitors are shared between rooms, mobile carts such as the Chief Large Fusion AV Cart (LPAUB) deliver a flexible solution. And thanks to the exclusive Dell Screen Drop accessibility feature included in our 4K interactive touch monitors, there is no need to use electric height adjustable carts and stands for these monitors.

---

**Recommended Dell Large Displays**

**DELL 75 4K INTERACTIVE TOUCH MONITOR – C7520QT**
Encourage student engagement and collaborative learning with the Dell 75 4K interactive monitor with up to 20-point touch. Exclusive Dell Screen Drop accessibility feature help improve reachability for users of different heights, ideal for younger students.

**DELL 70 INTERACTIVE TOUCH MONITOR – C7017T**
Elevate a classroom with the Dell 70 interactive monitor with up to 10-point touch and Full HD resolution. The special coating on the LCD panel reduces reflections and fingerprints, making it ideal for interactive learning.

**DELL ADVANCED LASER PROJECTOR – P519HL**
This lamp-free Laser Projector is another option for impressive presentations in learning spaces. It can provide continuous 24/7 operation at a bright 4,000 lumens, for beautiful projection even in less-than-ideal lighting.
LEARNING SPACES

Recommended Solutions

ESSENTIALS

DELL OPTIPLEX MICRO PC WITH INTEL UNITE®
Include a Dell OptiPlex Micro PC for an all-in-one solution that makes it easy for instructors, substitute teachers and learners to grab content from the cloud and share without having to manually connect their personal devices or obtain special access.

CHIEF MOUNTS & STANDS
Compatible with Dell 70 & 75 monitors:
- Fixed Wall Mount – LSA1U (included with C7017T)
- Mobile Cart – LPAUB
- Floor Stand – LFAUB
- Clamping kit for C5519Q – FCA520 (for cart) / FCA112 (for wall mount)

LOGITECH RALLY
Hearing the instructor and others contributing to a discussion is critical for learning. Logitech Rally offers clear audio, even when showing videos.

ACTIONTEC SCREENBEAM ENTERPRISE 960
Built for presentations and collaboration, this wireless module allows you to easily connect to displays, even if you don’t have an internet connection.

SOFTWARE SOLUTIONS

Google for Education
Google for Education offers secure and straightforward cloud-based management with automatic updates and built-in security features. Students and teachers can connect their Chromebooks directly to the Large Format Monitor using one of the many available inputs, or connect wirelessly using Chromecast. They can annotate and interact with compatible applications directly on the display or from their touch-enabled Chromebook.

Microsoft
With Microsoft in Education, students and teachers can easily connect to external devices such as speakers, cameras, and digital microscopes, as well as an infinite number of software applications. Choose from web, mobile, and desktop version of apps that students can annotate over simultaneously and in real time, such as Microsoft Edge, PowerPoint and OneNote.

Intel UNITE
The Intel Unite® solution lets you easily create and manage a secure content sharing and collaboration platform for your organization. Wirelessly connect displays, employees, and mixed technology environments so your team can share and collaborate seamlessly, wherever they are.

FlatFrog
FlatFrog works just like a typical whiteboard — allowing presenters to annotate on the surface, capture annotations with differentiated pen functionality for multiple users, and erase content using their palms. (License included with C5518GT, C7520GT and C8618GT.)

DisplayNote
DisplayNote software helps to make presentations more interactive. Allowing users to connect and contribute to the presentation and collaborate with each other from their own devices. (License included with C5518GT, C7017T, C8618GT.)

We give students highly immersive, productive and interactive learning experience with Dell large format monitors.”
