Dell EMC Isilon Fuels the AI Rocket Ship

IT’S A PERFECT STORM THAT’S DRIVING AI DEMAND

Multiple forces are converging to make AI more popular and accessible than ever before.

MORE DATA
There is increased data available to fuel AI — with more being generated every second. Most of this data is unstructured.

MORE COMPUTE POWER
Multi-threaded GPUs and CPUs now power algorithms, processing in real time, facilitating quick identification of trends and patterns.

AI INNOVATION
AI toolkits and skillsets are becoming ubiquitous enabling more organizations to train machines to use data to sense, learn, reason, make predictions and evolve.

THE DELL EMC ISILON-BASED SOLUTION

Dell EMC Isilon F800 All-Flash Scale-out NAS delivers the analytics performance and extreme concurrency at scale to consistently feed the most data hungry analytic algorithms. Combined with Isilon’s enterprise features for data management, data security, data compliance, and data protection help your AI solution conform to regulatory and enterprise security policy requirements.

ALL-FLASH PERFORMANCE
Eliminate the I/O bottleneck for AI with up to 18x more bandwidth than the competition. Up to 15 GB/s per chassis; up to 540 GB/s per cluster.

EXTREME SCALE
Simple and seamless scaling to 21x more capacity than the competition scaling from 10s of TBs up to 10s of PBs with industry leading storage efficiency up to 85%.

FLEXIBILITY
Bring the analytics to the data with in-place analytics leveraging multi-protocol support such as SMB, NFS, HTTP and native HDFS to support multiple uses.

ENTERPRISE FEATURES
OneFS delivers robust data protection and security options with guaranteed resiliency. Automatic tiering between All-Flash, Hybrid and Archive nodes via SmartPools.
DELL EMC ISILON DEEP LEARNING SOLUTION PORTFOLIO

Dell EMC Isilon is the only vendor to offer flexibility and informed choice with NVIDIA, the leader in AI. By pairing high performance, high bandwidth GPU accelerated compute with high performance, high bandwidth, scale-out flash storage we make AI simple for organizations looking to deploy large scale machine learning and deep learning.

All-Dell EMC for AI

BEST OF BREED
Customize your own high-performance scale-out AI environment with the AI optimized Isilon F800 and PowerEdge C4140. This solution can also be added as a performance tier to an existing Isilon cluster.

Dell EMC Ready Solution for AI

DEEP LEARNING WITH NVIDIA
This solution is built to simplify AI and deliver faster, deeper insights. Dell EMC’s proven expertise lowers risk and shortens deployment times with pre-validated technologies including hardware, AI software, and services.

Reference Architecture

ISILON WITH NVIDIA DGX-1
This architecture pairs NVIDIA’s 8-way GPU complex with Dell EMC’s scale-out all-flash storage to give more flexibility in deploying large scale AI solutions.

ISILON-BASED DEEP LEARNING SOLUTION PORTFOLIO VALIDATION

Highlighted below are the results from the ResNet-50 benchmark performing an image classification convolutional neural network (CNN) on labeled images. Using the 148 GB ImageNet dataset as a foundation we made 150 exact copies of each image to create a ‘real-life’ 22.5 TB dataset which was larger than the server RAM and coherent shared Isilon cache to ensure I/O operations during benchmarking.

SUMMARY BENCHMARK RESULTS
Dell EMC Isilon and NVIDIA GPUs in combination result in:

- Maximize compute ROI with 97% or higher GPU utilization
- Extreme performance with 96% or higher of local memory
- Linear performance scaling from 8 to 72 GPUs

ISILON ACCELERATES AI BY ELIMINATING THE I/O BOTTLENECK AT SCALE

ACCELERATE INNOVATION
Up to 2.7x faster performance** to accelerate model training cycles

IMPROVE DATA SCIENCE PRODUCTIVITY
Flexible in-place analytics and pre-validated solutions for faster, lower risk deployments

INCREASE MODEL ACCURACY
Deeper, higher resolution data sets with access to 10s TBs up to 10s PBs per cluster

SIMPLE SCALE-OUT DEPLOYMENTS
Start small and independently scale-out compute and storage for large scale deployments
DELL EMC ISILON IN ACTION

PRECISION MEDICINE

"Data sets using multiple inputs are becoming so massive, we must rely on AI to help make sense of it all. Dell EMC is a critical partner as we push the science forward, as it gives us a simple scale-out solution to manage and consume petabytes of data and to expedite genome processing from weeks to hours. When it comes to research that saves lives, where seconds matter, we rely on Dell EMC."

— JAMES LOWEY, CIO TGEN

Learn more about TGEN

ADVANCED DRIVER ASSISTANCE SYSTEMS (ADAS)

"Dell has simplified the management of the petabytes of data we create each month and gives us the speed and agility to run nearly 2 million simulations per day. Dell's expertise has allowed us to get out of the business of IT and to be laser focused on developing AI powered solutions that save lives."

— LEADING AUTO MANUFACTURER

MASTERCARD: GETTING SMARTER ABOUT FIGHTING FRAUD

Safe, seamless, and frictionless card transactions powered by Dell EMC AI.

BUSINESS NEED
MasterCard needed to pivot their business from a credit card company to a global technology company focused on delivering positive customer experiences with safe and secure transactions.

SOLUTION
MasterCard worked with Dell to build AI based technology solutions from Edge to Core to Edge making transactions safe, seamless and frictionless. By bringing together device intelligence, behavioral analytics, passive biometrics, and trusted user profiles MasterCard is able to outsmart fraudsters by scoring 1.9M rules in milliseconds for each of their 160M transactions an hour.

Learn more about MasterCard

BENEFITS

PREDICTIVE PURCHASE BEHAVIOR
Understand how, when and where customers buy leading to predictive analytics.

INCREASED SECURITY
Increased security and fraud protection via analyzing customer purchasing patterns, affinities and rhythms to identify anomalies that could represent fraud using machine learning.

EXPANDING YOUR BUSINESS
Expanded business with anonymized data showing share of wallet compared to competition, average ticket and frequency to identify marketing opportunities and measure return on investment

ENTERPRISE STRATEGY GROUP VALIDATION

"ESG validated that these Ready Solutions can accelerate AI model development. ... The high GPU utilization and linear scaling shows that the Deep Learning with NVIDIA solution featuring Isilon is ideally architected to scale out and eliminate I/O bottlenecks for AI training workloads. ESG recommends that organizations investigate how Dell EMC Ready Solutions for AI can simplify and accelerate their AI journey."
