Elevated design, unparalleled productivity

LATITUDE 7300 | 7400 LAPTOPS

Our most up-leveled Latitude, available in a premium carbon fiber weave or stunning aluminum in both sizes. Up to 6% smaller footprint than the previous generation. Get the most expansive viewing experience in the most compact size. Display options include 13” and 14” HD plus FHD options with antiglare. To top it off, we’ve moved to water-based paint to reduce toxic emissions.

Quickly get to work with the redesigned one handed-open hinge. One less password to remember when signing on with either the fingerprint reader on the power button or IR camera plus Windows Hello. The FHD Super Low Power panel option combined with Dell Power manager can optimize battery performance. And if critically low, Dell’s unique ExpressCharge allows for up to 80% full battery charge in an hour.

GET TO WORK FASTER

Digital SafeScreen option offers better power efficiency, color integrity and contrast ratio so you can see your work while others can’t. A new camera shutter option further protects privacy. Dell provides the ultimate convenience of managing Windows 10 endpoints from one console with Dell Client Command Suite and VMware® Workspace ONE™ integration. Offering many ways to seamlessly sign on, SafeID protects end user credentials with optional fingerprint reader on the power button and the FIPS 201 Smart Card Reader - delivering fast, multi-factor authentication from the world’s most secure PC portfolio. Furthermore, Dell unique vPro extensions remotely manage and run diagnostics on a fleet of devices, whether they are powered on or off.

WORLD’S SMALLEST PREMIUM BUSINESS-CLASS NOTEBOOKS*

Our most up-leveled Latitude, available in a premium carbon fiber weave or stunning aluminum in both sizes. Up to 6% smaller footprint than the previous generation. Get the most expansive viewing experience in the most compact size. Display options include 13” and 14” HD plus FHD options with antiglare. To top it off, we’ve moved to water-based paint to reduce toxic emissions.

OUR FASTEST MACHINES YET

Dell pioneered ExpressConnect to intelligently find the best Wi-Fi access point, for less drops and lags. We also innovated the first 4x4 dynamic antenna tuning solution in a PC® providing reliable mobile broadband, especially in weak signal areas. Get up to 233% improvement in WWAN speeds gen over gen with our 1.0 Gbps (CAT 16) option. The latest 8th Generation Intel® up to i7 4-Core™ vPro™ Processors increase productivity, manageability, and security for your business. And our 7000 notebooks are FirstNet Ready™, so first responders and public safety organizations can get priority access to the fast, reliable, and high-capacity LTE network core.*

AN INTELLIGENT APPROACH TO MANAGEMENT

Digital SafeScreen option offers better power efficiency, color integrity and contrast ratio so you can see your work while others can’t. A new camera shutter option further protects privacy. Dell provides the ultimate convenience of managing Windows 10 endpoints from one console with Dell Client Command Suite and VMware® Workspace ONE™ integration. Offering many ways to seamlessly sign on, SafeID protects end user credentials with optional fingerprint reader on the power button and the FIPS 201 Smart Card Reader - delivering fast, multi-factor authentication from the world’s most secure PC portfolio. Furthermore, Dell unique vPro extensions remotely manage and run diagnostics on a fleet of devices, whether they are powered on or off.

**The FirstNet core is designed for use in the United States.
Recommended Accessories
LATITUDE 7300 | 7400 LAPTOPS

ON-THE-GO

DELL USB-C MOBILE ADAPTER | DA300
Connect your Latitude to almost any device with a convenient 6-in-1 compact adapter.

DELL PRO STEREO HEADSET | UC350
Hear every word clearly on your next call with the Dell Pro Stereo Headset, optimized to provide in-person call quality and certified for Microsoft Skype for Business.

DELL NOTEBOOK POWER BANK PLUS (18,000 MAH) | PW7015L
This lightweight and compact powerbank will keep your laptop or cellphone powered on-the-go without adding bulk to your bag.

DELL PREMIER SLIM BACKPACK 15 | PE1520PS
Keep your devices and other office essentials securely protected within this stylish travel companion, made using earth-friendly dyes.

DELL PREMIER WIRELESS MOUSE | WM527
Enhance daily performance and productivity with this elegantly designed wireless mouse.

AT THE DESK

DELL THUNDERBOLT DOCK | WD19TB
Work at full speed with Dell’s powerful Thunderbolt Dock. Charge your system faster, support up to three 4K displays and connect to your peripherals via a single cable.

DELL DUAL MONITOR STAND | MDS19
This space-saving stand, mounts up to two 27-inch monitors, providing the screen real estate you need to be most productive.

DELL ULTRASHARP 27 MONITOR | U2718Q
The world’s first 27” 4K monitor with InfinityEdge that supports HDR content playback. See stunning colors and details on a virtually borderless display.

DELL PREMIER WIRELESS KEYBOARD AND MOUSE | KM717
Enhance productivity and enjoy its elegant design that will fit into almost any workspace. For increased productivity you can simultaneously pair up to two compatible devices with Bluetooth LE.
Dell Technologies Unified Workspace

Dell Technologies Unified Workspace is the most comprehensive solution to deploy, secure, manage and support virtually all devices from the cloud. We designed this revolutionary solution with intelligence and automation providing visibility across the entire endpoint environment. We help save time, improve user experience, optimize resources and strengthen security.

Our modern deployment solution, ProDeploy in the Unified Workspace allows you to revolutionize the way deployment gets done. By spending just one hour for set up, IT can then hand deployment to Dell and have preconfigured systems shipped directly to the end users - wherever they are.

Dell Endpoint Security for the Unified Workspace helps manage growing cyber risks while embracing workforce transformation. Gain actionable insight to help quickly and efficiently prevent, detect and respond to cyber-attacks-keeping your environment free from harm.

We integrated our hardware management solution Dell Client Command Suite with VMware Workspace ONE, allowing you to take advantage of unified endpoint management (UEM) and manage the firmware, operating system and applications for all devices from the Workspace ONE console. UEM simplifies the management of the entire environment saving IT time from having to work between separate consoles for PCs and phones.

ProSupport Plus continues to be the only predictive and proactive support in the market. When compared to key competitors, ProSupport Plus with SupportAssist reduced time to resolve a failed hard drive with up to 11x faster time to resolution.

**Notes:**
- Processor Options: "8<sup>th</sup> Generation Intel® Core™" refers to the 8<sup>th</sup> generation Intel Core processors, which are known for their performance and energy efficiency.
- Memory Options: DDR4 2666 MHz Non-ECC SDRAM operates at 2400 MHz with Intel® 8<sup>th</sup> Gen processors, indicating compatibility with the latest Intel processor generation, ensuring optimal performance and efficiency.
- Chipset: Integrated with the Processor indicates that the chipset is seamlessly integrated with the processor, enhancing overall system performance.
- Graphics: Intel® UHD Graphics 620 is a high-performance integrated graphics solution that provides excellent visual quality and performance for a variety of tasks.
- Display: The display options include various configurations such as HD TN (1366 x 768), FHD WVA (1920 x 1080), and HD IR Cam/Mic, each offering different visual and interactive experiences.

**Additional Details:**
- The laptop models support Intel® UHD Graphics 620, which is a powerful integrated graphics card that provides excellent visuals and performance for everyday tasks.
- Memory options include DDR4 2666 MHz Non-ECC SDRAM, operating at 2400 MHz, providing a fast and reliable memory performance.
- The display options range from HD TN to FHD WVA, each offering different resolution and display technologies for varied use cases.

**Conclusion:** These specifications highlight the advanced technology and performance capabilities of the LATITUDE 7300 and 7400 laptops, catering to a wide range of users from professionals to everyday users.
