Maximize your workstation performance with Dell Optimizer for Precision software and featured components including an Intel® Core™ (up to 8-cores on i9) or Xeon® processor, up to 64GB DDR4 memory (ECC optional) and NVIDIA Quadro™ professional graphics (4GB).

Get an extremely long battery life with an optional 6-cell ExpressCharge battery, and up to 4TB (2x2TB) of storage for projects on the go.

Dell Optimizer for Precision is AI-based software that learns how you work and adapts to your style to create a smarter, more-personal experience. The result? Improved system responsiveness, better application performance, smarter use of battery power, reliable network connectivity and optimized storage. All from a single console that you manage from WorkspaceOne or Dell SCCM—allowing IT staff to deploy, configure, update, and monitor Optimizer remotely.

This new mobile workstation is available in two colors, including a beautiful aluminum Titan Grey, and comes in at 4.35lbs. The 3551 is great for 2D and 3D CAD, as well as heavy Excel file users who need mobility. Also, Thunderbolt keeps you connected to all the accessories you need and keeps pace with your speed.

Dell Technologies Unified Workspace

Dell Technologies Unified Workspace is the most comprehensive solution to deploy, secure, manage and support virtually all devices from the cloud. We designed this revolutionary solution with intelligence and automation providing you with visibility across the entire endpoint environment. We help you save time, improve user experience, optimize resources and strengthen security.

Our modern deployment solution, ProDeploy in the Unified Workspace allows you to revolutionize the way deployment gets done. By spending just one hour for set up, IT can then hand deployment to Dell and have preconfigured systems shipped directly to the end users--wherever they are.

Dell Endpoint Security for the Unified Workspace helps you manage growing cyber risks while embracing workforce transformation. With Dell SafeGuard and Response powered by Secureworks, you gain actionable insight to help you quickly and efficiently prevent, detect and respond to cyber-attacks - keeping your environment free from harm.

The 3551 adds additional security features such as Intel® Platform Trust Technology, Trusted Platform Module (TPM) 2.0, Chassis lock slot support; Support for Computrace and SmartCard Reader; Fingerprint reader or FIPS Fingerprint reader (Check regional availability).

We integrated our hardware management solution Dell Client Command Suite with VMware Workspace ONE, allowing you to take advantage of unified endpoint management (UEM) and manage the firmware, operating system and applications for all devices from the Workspace ONE console. UEM simplifies the management of the entire environment saving IT time from having to work between separate consoles for PCs and phones.

ProSupport Plus continues to be the only predictive and proactive support in the market. When compared to key competitors, ProSupport Plus with SupportAssist reduced time to resolve a failed hard drive with up to 11x faster time to resolution*
